## Additional Notes About the A.A.S. Nursing (LPN to RN) Program

- A prerequisite course may be needed prior to enrollment in some courses within this program. Specific prerequisite requirements are listed in the Course Description section in the Course Catalog. A summary of the prerequisites are listed below in the Example Course Sequence.
- This program as outlined does not meet MTA requirements. A student would need a MTA approved math course, one additional science course (non-BIOL), one additional social science course, and two different humanities courses. See advisor for specific details to ensure proper course selection if MTA is important to you.
- Proficiency in math and chemistry is required for this program. Therefore, some student may be required to take MATH 101 and CHEM 100 in addition to the courses listed on the previous page.
- A student's active LPN license satisfies the NURS 166 Foundations in Nursing course, a prerequisite for many courses in this program.
- Courses taken out of sequence may delay a student's ability to complete the program in a timely manner. Please consult your advisor regularly.
- Each student should submit a graduation application at least one full semester before he/she plans to graduate.
- This program is subject to change. Students should consult with their advisor for program updates.
